SAN ANTONIO, TX 78245 0549

Inspection
Type: ROUTINE INSPECTION
Date: JUL-01-2004

All redactions on this page are pursuant to (b)(6) & (b)(7)(c).

3.75 (a)

3.75 (c)

HOUSING FACILITIES, GENERAL.

a) Structure: construction. Housing facilities for nonhuman primates must be designed and constructed so that they are structurally sound for the species of nonhuman primates housed in them. They must be kept in good repair, and they must protect the animals from injury, contain the animals securely, and restrict other animals from entering. The chain link fencing on the front of C 6 cages needs to be repaired. There are weak areas and small gaps in the chain link fencing where 2 sections join. The fence is bowing out along these areas. The fencing needs to be repaired to maintain structural strength and prevent escape or injury of the animals.
CORRECT BY: 8-2-04

(c) Surfaces

(1) General requirements. The surfaces of housing facilities -- including perches, shelves, swings, boxes, houses, dens, and other furniture-type fixtures or objects within the facility -- must be constructed in a manner and made of materials that allow them to be readily cleaned and sanitized.....
Chimp Building 7 - The paint is chipping on the walls in several of the indoor chimp holding enclosures. Surfaces need to be repaired so they may be readily sanitized.
CORRECT BY: 8-2-04

3.84 (d)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

(d) Pest control. An effective program for control of insects, external parasites affecting nonhuman primates, and birds and mammals that are pests, must be established and maintained so as to promote the health and well-being of the animals and reduce contamination by pests in animal areas. The facility has an ongoing pest control program in place however roaches are a problem in Building 8 hospital bays. Many roaches were seen crawling on the walls in one bay. The pest control program needs to be intensified in this area to attempt to reduce the roach problem.
CORRECT BY : 8-2-04
Inspection was conducted with [redacted] and Dr. Pannill and Dr. Kjos USDA.
